

# Wikipedia: Moderate perspective

From Wikipedia, the free encyclopedia

. **The moderate approach is one of** Wikipedia's guidelines and strategies and its five pillars

All Wikipedia articles and other entries must be written from a moderate point of view, which, as far as possible, impartially expresses all points of view in certified and published sources. This moderate approach is non-negotiable and is binding on all articles and all users and moderators

Wikipedia: Moderate approach is one of the three basic strategies of Wikipedia. The other two strategies include verification and not actual research . Together, these three strategies determine the quality and acceptability of text for Wikipedia articles

All Wikipedia content must be **moderate** . Moderate perspective means that the text should be fair, moderate and as free of prejudice as possible. And based on all the ideas that have been published under Wikipedia: Verification
